Babelfish Walking Tours:

A TRIP INTO NATURE

Taking a city trip does not mean you have to miss out on enjoying nature. Würzburg and its surroundings offer everything ranging from historic parks up to local primeval forests. Our pick-and-mix map for all friends of fresh air and nature will lead you to the city's most beautiful green spaces.

1 Ringpark

During a walk in the Ringpark, you can easily take a break from everyday life. The 19th century park extends along the historic town boundaries for about 3 kilometers in a circle around the old town.
Tip: Würzburg's "green lung" also offers you interesting insights into the town history, e.g. at the war memorial 1a **Kriegerdenkmal im Husarenwäldchen** or when walking the 1b **Nobelpreisträgerpfad,** a theme trail pointing out interesting facts about Würzburg's winners of the Nobel Prize
Rennweg, 97070 Würzburg

2 Residence Court Gardens

The Court Gardens (Hofgarten) were laid out at the end of the 18th century during the rule of the Prince Bishop of Würzburg, Adam Friedrich von Seinsheim (reigned 1755-1779), and have been remodelled multiple times ever since. Nowadays, you can amble along the different sections of the Gardens that have all been inspired by historical designs. A recreation area right at the heart of the city!
